

Add the following cost containment initiative to Article II Health and Human Services Commission Rider 21

Add to Rider 21(c)

c. achieving other programmatic and administrative efficiencies to include but not limited to the following:

(1) Implement programmatic efficiencies in the service coordination programs within Medicaid managed care programs to maximize nurse workforce resources by providing flexibility to MCOs to determine the level of licensure and work experience required to meet the needs of individuals with chronic and complex conditions enrolled in the Medicaid managed care programs.
